

Quassel IRC - Bug #999

Core crash on network removal

06/24/2010 07:17 PM - APTX

Status:	New	Start date:	06/24/2010
Priority:	High	Due date:	
Assignee:		% Done:	0%
Category:	Quassel Core	Estimated time:	0.00 hour
Target version:		OS:	Linux
Version:	0.6-pre		
<b>Description</b> Quassel crashes when deleting a network.  I added a network, could not connect to it and decided to remove it. Details on the crash are in the attached log.  I'm using the pqsql storage backend. It's actually quassel 0.6.1

History

#1 - 09/13/2010 12:22 AM - brot

The log doesnt look like there were problems when a network is deleted - It looks more like it tried to show a buffer of the network you just deleted.

Were you able to reproduce the problem everytime?

#2 - 09/13/2010 05:18 AM - APTX

I actually never tried adding a network since then. It was the core that crashed.

#3 - 09/13/2010 05:20 AM - APTX

I meant deleting a network.
